

MODULE 12 WORKSHEET

Discovery Preparation

Prepare serious live opportunities so you can understand the client's sales system and move the conversation forward without improvising blindly.

Completion target: every serious opportunity has a short company brief, three high-value discovery questions, one relevant proof artifact, a call objective, and a clear next-step plan.

1. Opportunity triage

#	Company / contact	Signal	Serious enough to prepare?	Next event
1			Y/N	
2			Y/N	
3			Y/N	
4			Y/N	
5			Y/N	

A "serious" opportunity is one with an interview, discovery call, substantive reply, request for proof, or clear buying/hiring interest.

2. Call objective

What must I understand by the end of the conversation?

What is the best realistic next step?

3. Company research brief

Company:

What they sell:

Who they sell to:

Likely deal value / customer value if visible:

Current outbound / sales motion I can see:

Likely bottleneck:

One useful observation I can mention:

What I do NOT know yet:

4. Three discovery questions

Choose the three questions most necessary for this opportunity. Do not mechanically ask a 20-question checklist.

#	Question	Why I need this answer
1		
2		
3		

Useful question bank

What are you selling and what is a typical customer worth?

Who is your ideal customer right now?

Where are most leads coming from?

What happens from first contact to closed deal?

What part of the process is the biggest bottleneck?

What outreach has already been tried?

What counts as a qualified meeting?

What would make someone successful in the first month?

5. One useful artifact

Bring the smallest proof that answers this client's risk.

Possible artifact	Use when...	Selected?
5 sample leads	They question research quality / ICP understanding	
Mini campaign teardown	They want to see strategic thinking	
Voice/call sample	They are hiring a caller / setter	
Rewritten opener / message	They have a weak current outreach approach	
Mini process map	They need operating discipline / CRM clarity	

Artifact selected:

Why this is the right proof:

6. 15-minute conversation map

Time	Purpose	Your note
0-2 min	Context and objective	
2-8 min	Understand business and bottleneck	
8-11 min	Explain smallest useful service	
11-13 min	Define success	
13-15 min	Agree next step	

7. Likely concern rehearsal

Concern	Truthful response
"You don't have much freelance experience."	
"What results can you guarantee?"	
"What would you do first?"	
Custom concern
