

MODULE 14 WORKSHEET

Review, Next Cycle & Graduation

Turn the sprint into a self-correcting system. Keep what works, repair the weakest stage, and prepare the next cycle without restarting from zero.

Completion target: full funnel review + Keep/Change/Stop decisions + one next-cycle experiment + at least 30 fresh opportunities ready + clear graduation / continuation decision.

1. Full sprint scoreboard

Metric	Total
High-fit opportunities researched	
Targeted job applications	
Direct-client first touches	
Warm messages	
Follow-ups completed	
Replies / conversations	
Positive interest	
Interviews / discovery calls	
Proposals / paid pilots offered	
Clients won

3. Keep / Change / Stop

KEEP - proven useful	CHANGE - weak but fixable	STOP - low-value / distracting

4. Next-cycle hypothesis

I believe the current bottleneck is:

Because:

For the next evidence window I will change:

I will keep stable:

Run discovery preparation	Y/N	
Define a paid pilot	Y/N	
Diagnose a weak funnel	Y/N	

Outcome branch

- [] **Client won:** move into onboarding and delivery using Module 9 of the core course.
- [] **No client yet, but active pipeline:** start the next 7-day evidence cycle.
- [] **No pipeline / weak execution:** repair execution consistency before changing strategy.

MODULE 14 QUALITY GATE

Review & Next Cycle - PASS / REVISE

- ☐ Full funnel scoreboard completed.
- ☐ Weakest stage identified with evidence.
- ☐ Keep / Change / Stop decisions made.
- ☐ One next-cycle experiment defined.
- ☐ 30 fresh opportunities are ready.
- ☐ Next 7-day operating targets are explicit.
- ☐ Graduation competencies were assessed honestly.
- ☐ If a client was won, onboarding is the next action.
- ☐ If no client was won, the system continues without restarting the course.
