

MODULE 5 WORKSHEET

Opportunity Pipeline

Build the real list of companies, roles, and opportunities you will begin contacting in the next module.

Completion target: 25 direct-client prospects + 15 targeted job opportunities + 10 warm opportunities = 50 total, ranked by fit and next action.

1. Pipeline rules

- [] Every opportunity must plausibly need the service from Module 1.
- [] Every direct client must have an identifiable decision-maker.
- [] Every job must actually match lead generation, outbound, SDR/BDR, cold calling, or appointment-setting work.
- [] Warm opportunities must be real relationships or legitimate introductions - not random contacts labeled "warm."
- [] No company enters the pipeline only because it is famous or large.

2. Client-fit score

Criterion	0	1	2
B2B fit	Mostly consumer / unclear	Mixed	Clearly B2B
Customer value	Low	Moderate	High enough to justify outbound
Clear ICP	Hard to identify	Somewhat clear	Easy to identify
Decision-maker	Unknown	Role known	Person/role reachable
Need signal	No signal	Possible	Visible pipeline/growth need
Proof fit	Your proof is irrelevant	Somewhat useful	Your proof directly matches

A: 10-12 points. **B:** 7-9. **C:** 0-6. Work A first, then strong B.

3. Direct-client pipeline - 25 companies

Record only enough information to execute outreach. Do not build a giant database before contacting anyone.

7. Pipeline readiness audit

- ☐ 50 total opportunities exist.
- ☐ At least 20 are A or strong-B quality.
- ☐ Every A prospect has a likely buyer / role.
- ☐ Every job is current and truly relevant.
- ☐ Every opportunity has a next action.
- ☐ I am not delaying outreach to keep researching.

MODULE 5 QUALITY GATE

Opportunity Pipeline - PASS / REVISE

Pass standard: The pipeline contains enough high-fit opportunities to support real acquisition without lowering targeting quality.
