

MODULE 6 WORKSHEET

First Live Outreach

Enter the real market. This module is complete only after actual applications and outreach are sent.

Execution target: 5 targeted job applications + 10 direct-client first touches + up to 3 legitimate warm messages + every follow-up scheduled.

Live-opportunity rule: If a serious prospect replies, pause routine volume long enough to respond well. Real conversations outrank hypothetical exercises.

1. Pre-send readiness

- ☐ Module 4 proof package passed.
- ☐ I know the exact service I am offering.
- ☐ My sender/profile identity is accurate.
- ☐ I know which proof asset matches each opportunity.
- ☐ I have checked applicable channel/client rules.

2. Today's acquisition plan

Lane	Target	Actual	Quality rule
Targeted jobs	5		High fit only
Direct clients	10		A / strong B first
Warm	0-3		Legitimate relationship only

3. Job application execution log

#	Company / role	Evidence used	Customization made	Sent?	Follow-up / next action
1					
2					
3					
4					
5					

Application quality test

- ☐ Each application explains why this role fits my actual skill.
- ☐ At least one relevant proof item is referenced.
- ☐ I explain how I would approach the work, not only that I "want the job."
- ☐ No copy-pasted biography dominates the message.

4. Direct-client outreach log

#	Company	Buyer	Reason for contact	Channel	Sent?	Follow-up date / condition
1						
2						
3						
4						
5						
6						
7						
8						
9						
10						

5. Warm outreach log

#	Person	Relationship	Message purpose	Sent?
1				
2				
3				

6. Reply triage

Reply type	Immediate action
Positive / curious	Research company, answer directly, move toward useful conversation.
Question	Answer the question first; do not force your script.
Send info	Send relevant proof/information; ask permission for next follow-up.
Not now	Clarify timing if appropriate; record next action.
No	Respect it. Stop when requested.

Live replies and actions taken:

7. First-live-day review

Metric	Count
Applications sent	
Direct first touches sent	
Warm messages	
Replies	
Positive interest	
Calls/interviews scheduled	
Follow-ups scheduled	

One thing that felt harder in the real market than in practice:

One thing I will improve next:

MODULE 6 QUALITY GATE

First Live Outreach - PASS / REVISE

- ☐ 5 targeted applications were actually sent.
- ☐ 10 direct-client first touches were actually sent.
- ☐ Warm outreach, if used, was legitimate.
- ☐ Every outreach item was relevant to the recipient.
- ☐ Every due next action is recorded.
- ☐ No response was fabricated or counted twice.
- ☐ Real replies were handled before adding random volume.

Decision	PASS / REVISE
Correction before Module 7
