

MODULE 8 WORKSHEET

Targeting Improvement

Use early market evidence to improve who you contact before blaming the script or increasing volume.

Completion target: audit early results, identify the weakest targeting assumption, replace weak prospects, and add at least 10 higher-quality opportunities.

1. Evidence first

Measure	Count
Total first touches so far	
People actually reached / delivered	
Replies / real conversations	
"Not relevant" responses	
Wrong-person responses	
Positive interest	

Do not change the entire strategy from a tiny sample. First remove obvious bad targeting, then collect enough evidence to compare.

2. Targeting assumptions

Current client niche:

Current target company type:

Current buyer role:

Current main need / problem hypothesis:

3. Audit 10 contacted prospects

#	Company	Account fit?	Right role?	Real need signal?	Reachable?	Keep / Replace
1		Y/N	Y/N	Y/N	Y/N	
2		Y/N	Y/N	Y/N	Y/N	
3		Y/N	Y/N	Y/N	Y/N	
4		Y/N	Y/N	Y/N	Y/N	
5		Y/N	Y/N	Y/N	Y/N	
6		Y/N	Y/N	Y/N	Y/N	
7		Y/N	Y/N	Y/N	Y/N	
8		Y/N	Y/N	Y/N	Y/N	
9		Y/N	Y/N	Y/N	Y/N	
10		Y/N	Y/N	Y/N	Y/N	

Audit result

How many of 10 were genuinely strong targets?

Most common targeting failure:

4. Targeting failure diagnosis

Signal	Likely issue to inspect	Your evidence
Many wrong-person replies	Persona / role selection	
Correct role but "not relevant"	Account ICP / problem hypothesis	
High bounce / unreachable	Contact-data source / verification	
Replies say timing is wrong	Trigger selection / timing	
Strong conversations in one sub-segment	Possible segment to prioritize	

Single targeting change

I will change:

I will keep stable:

Why this change is supported by evidence:

5. Add 10 improved prospects

#	Company	Buyer	Improved fit reason	Trigger / signal	Priority
1					A/B
2					A/B
3					A/B
4					A/B
5					A/B
6					A/B
7					A/B
8					A/B
9					A/B
10					A/B

Comparison check

What is objectively better about these 10 than the previous batch?

6. Controlled test plan

Variable	Old	New	Keep stable?
Industry / segment			
Company size			
Buyer role			
Trigger			
Offer/message			

Evidence window before deciding:

MODULE 8 QUALITY GATE

Targeting Improvement - PASS / REVISE

- ☐ I audited real contacted prospects.
- ☐ I separated targeting problems from messaging problems.
- ☐ I identified one primary targeting weakness.
- ☐ I made one controlled change.
- ☐ I added at least 10 stronger prospects.
- ☐ I can explain why they are better targets.
- ☐ I defined an evidence window before judging the change.

Result	PASS / REVISE
Targeting hypothesis	
Correction if needed
